

Term 1 and 2 - Marvellous Moments in Squirrel Class

Squirrel Class had a wonderful time visiting Southway library. We walked together sensibly thinking about road safety. We also pointed out human and physical features that we have been learning about in geography for example buildings and the forest. When we got to the library, we were thrilled to see all the different exciting books we could explore and read. After we had time to look around and investigate what books and the areas we could choose from, we listened to a story read to us by the librarians and had a biscuit. What a wonderful afternoon!

In our PE learning, we have been lucky enough to have a PE coach come in to teach some key skills for gymnastics. Within these PE lessons we learnt about balances, how to sit like a gymnast and how to create a sequence. Every child created a gymnastic sequence that included a start and end position with 3 balances in the middle. The children thought of some creative balances and they tried hard to hold these positions for 5 seconds.

In our art learning, we have been inspired by the local artist Brian Pollard. We have appraised his work by looking at paintings of the Hoe and the Barbican amongst others. As a class, we voted for the area we would like to paint. We choose our favourite parts of his paintings and used them to create our own local area paintings. We love our paintings and have been amazed at how professional they look!
