

Marvellous Moments

Year 3 and 4!

We really enjoyed learning all about the lives of Romans in Topic and created some amazing Roman villas and shields for our homework.

We completed our first 'CREST' science activity making bird's nests ourselves using materials from the outdoor learning area.

Towards the end of Term 2, children in Year 3 and 4 got into the festive spirit by visiting Father Christmas in his cosy grotto. Lots of fun was had by all and children were entertained with a story whilst drinking hot chocolate and eating cookies! Children, parents and grandparents also enjoyed decorations afternoon together making reindeer snowballs, Christmas tree cards and paper chains.
