Oakwood Catch-Up Funding Statement

In light of the recent National Lockdown, and children now returning to school, we as a school are working hard to support all our children in moving their learning forward.

With the funding from the Government, which schools are to allocate as they see best to support the children in their school, we are taking into account previous strategies that have worked with our children, as well as responding to any further additional needs of the children as they return to school life.

At Oakwood Primary Academy our approach will be:

- To support the well-being of our children in settling back into school, managing their emotions and developing their learning capacity.
- To ensure the provision within the school day enables children to develop and build upon their learning from where gaps have been identified in their understanding and knowledge, focusing on key priority areas which include phonics, reading comprehension, writing skills including spelling, grammar and punctuation and number fluency in mathematics.
- To develop targeted intervention work with identified groups, working with known adults either within the school day, or as a group after school. This will support children in moving their learning forward, addressing gaps and developing the confidence to re-engage with learning with a positive mindset,
- Continue to ensure a broad and balanced curriculum is delivered for each year group with high quality resources to enhance provision.
