

Marvellous Moments – Murphy Class - Term 1 & 2 2019

In RE, we have been learning about how different religions celebrate.

Whilst learning about Judaism, we took part in Passover.

We enjoyed trying different foods and learning about the significance of each part of the meal.

We have been visited by two firefighters who taught us about fire safety. We shared what we already knew and they told us all about staying safe in different circumstances.

We love learning about science! We have been learning about different seasons and how the natural world changes. We explored the school grounds to look for signs of autumn and winter; then used what we found to inspire our artwork

Recently, a kickboxing instructor visited to teach us all about the sport and how it can be used to stay healthy and to defend ourselves.

In DT, we have been learning all about healthy eating. We designed our own fruit salads and invited our grandparents in to taste our creations!
