

# Our Marvellous Moments from Dahl Class Term 1 & 2 2019

Ancient Egyptian Shadufs; these ingenious inventions allowed the locals to irrigate their vital crops with water from the River Nile with incredible efficiency. They were tricky to build and even trickier to operate!

As part of STEM Week, we took part in various challenges including some of the Crest Award activities. The chance to explore the intricacies of birds nest building gave us a new found respect for these structures build by some highly skilled “Beaked Engineers”.
